

E2S TWO-STAGE ROTARY VANE PUMPS

EDWARDS THE PARTNER OF CHOICE

Edwards is a world leader in the design, technology and manufacture of vacuum pumps for industrial applications with over 100 years' history.

We believe in delivering results that bring value to our customers by using our breadth of industry experience to identify and apply solutions. Using the most innovative and up-to-date modelling techniques, we can optimise the pumping configuration for customers to provide a system design giving the maximum performance in the most reliable and cost-effective way.

SIMPLE, YET POWERFUL ROTARY VANE PUMP

E2S range - E2S45, E2S65 and E2S85 - is our modern series of industrial two-stage oil-sealed rotary vane vacuum pumps for medium vacuum. E2S perfectly balances performance, cost and usability. A reliable piece of engineering, simply made and well-suited for many standard applications. It pumps down fast, handles vapours and contributes to minimising noise level in your workplace.

BOOST YOUR PRODUCTION NOT YOUR EXPENSES

SPECIALISED PERFORMANCE

- High pumping speed to reduce cycle times and gain productivity
- Hydro mode with improved vapour handling capability to fit with humid applications
- Low noise level matching with lab environment expectations

MODERN DESIGN MADE SIMPLE

- Economical product with clean layout
- Built-in oil filter to protect pump mechanism from contaminants and prevent oil leaks
- Innovative design to increase cooling performance keeping high vapour tolerance
- No complex mechanical arrangement to keep technology simple

GREAT USABILITY

- Effective product design to accommodate users' needs
- Easy and pleasant to use and service. On-site cleaning to maximise uptime
- Efficient over-temperature protection and low oil level detection (optional features)
- Increased safety against operator misuse

E2S VARIANTS

- E2S45
- E2S65
- E2S85

WOULD YOU NEED MORE SPEED?

Standard combinations of E2S two-stage rotary pumps and EH mechanical boosters are available for high capacity demands.

Maximum pumping speed of standard E2S/EH systems at 50Hz

	EH250	EH500	EH1200
E2S45	230	X	X
E2S65	240	365	X
E2S85	250	385	770

Ultimate vacuum: 3×10^{-4} mbar

Factory pre-assembled, these pumping systems are compact, mobile and easy to use. With a direct start from atmospheric pressure our E2S85-EH1200 stack provides up to 900 m³/h effective speed and allows to reach high vacuum range with an ultimate vacuum of 3×10^{-4} mbar.

APPLICATIONS

- Vacuum degassing and drying
- Heat treatments and vacuum ovens
- Vacuum insulation
- Plasma treatments (except O₂ plasma)
- Leak testing
- Gas production and handling
- Research and development
- Backing of high vacuum pumps or systems

TECHNICAL DATA

SERVICE AND SUPPORT

To ensure your pump maintains optimal performance and reliability, we offer a wide range of service solutions, tailored to meet your needs. From Field Service intervention to Managed Maintenance agreements, we will take care of your pump to ensure that it continues to deliver clean, consistent, efficient performance, with lower running cost and optimum total cost of ownership for its entire operating life.

Selecting original spare parts, maintenance kits and grease, means that every critical part performs as it was intended. Form, fit and function are guaranteed. Our services engineers only fit 100% genuine parts to ensure you receive the best result from each and every service.

Mobility kit available separately.

E2S ACCESSORIES

Instrumentation	
A35924247	Oil level monitor E2S
A35924246	Temperature switch E2S

Exhaust elements	
1019040A20	E2S45 exhaust oil mist filter
1019090A20	E2S 65-85 exhaust oil mist filter

Inlet elements	
A44202000	Inlet dust filter ITF100
A44302000	High capacity inlet dust filter ITM100
A44102000	Inlet catchpot ITO100
A44402000	Inlet chemical trap ITC100

Gas ballast	
A35924546	Electric gas ballast E2S with solenoid valve
A35924546	Permanent gas ballast E2S without solenoid valve

Booster fitting kits (spool + supporting bracket)	
A35924131	EH250 fitting kit for E2S 45-65-85
A35924142	EH500 fitting kit E2S 65-85
A35924153	EH1200 adapter spool E2S85
NRV355212	EH1200 frame for E2S85

Mobility kits	
NRV355222	Mobility kit for E2S 45-65-85 with EH250-500
NRV355232	Mobility kit for E2S85 with EH1200 (castors)
